Bali, Denpasar

www.linkedin.com/in/mahayasa-wibawa-1ba403306

"I am a seventh-semester Information Systems student at ITB STIKOM Bali with a strong foundation in programming and web development. Throughout my academic journey, I have applied theoretical knowledge to practical projects while actively participating in organizational and social activities that enhanced my leadership, communication, and teamwork skills. I also served as Deputy Chairman of the 2023 PKKMB event, where I honed my organizational and leadership abilities, and completed an internship at FOXBYTE, where I strengthened my programming expertise and gained valuable insights into real-world business processes and IT operations. These experiences have equipped me with both technical competencies and essential soft skills, preparing me to contribute effectively in professional IT environments."
